<sup>\*</sup> LED's properties might be different from suggested values like above and below tables if operation condition will be exceeded our parameter range. Care is to be taken that power dissipation does not exceed the absolute maximum rating of the product.

<sup>\*</sup> All measurements were made under the standardized environment of Lightning LED.

<sup>\*</sup>  $2\theta 1/2$  is the off-axis where the luminous intensity is 1/2 of the peak intensity.

<sup>\*</sup> Rth j-sp is the thermal resistance from LED junction to solder point on MCPCB with electrical power.

#### Caution

- 1. Reflow soldering is recommended not to be done more than two times. In the case of more than 24 hours passed soldering after first, LEDs will be damaged.
- 2. Repairs should not be done after the LEDs have been soldered. When repair is unavoidable, suitable tools must be used.
- 3. Die slug is to be soldered.
- 4. When soldering, do not put stress on the LEDs during heating.
- 5. After soldering, do not warp the circuit board.

#### **Notes on Lightning EMC Series soldering:**

- 1. Recommend to use reflow machine.
- 2. Recommend to use heating plate soldering.
- 3. Manual soldering is not recommended.

#### Notes on reflow process:

- 1. To confirm whether the actual temperature curve in the reflow soldering conditions comply with recommended conditions. LEDs are guaranteed for one time reflow.
- 2. During reflow process do not apply force on LED active area.
- 3. After reflow process, PCB board should be cooled down before packing or storage.

#### **Precaution for use**

#### Storage

- 1.Before opening the package: The LED should be kept at 30°C or less and 90%RH or less.
- 2.After opening the package: The LED's floor life is 168Hrs under 30°C or less and 60%RH or less. If unused LED remain, it should be stored in moisture proof packages JEDEC (MSL 3).
- 3.If the moisture absorbent material(silica gel)has faded away or the LEDs have exceeded the storage time, baking treatment should be performed using the following conditions: Baking treatment: $60\pm5^{\circ}$ C for 24 hours.
